

Guide to the Enterprise Catalog

Welcome to the new Enterprise online catalog at the Washington County Public Library. We hope that you will find the catalog easy to use. This handout should get you started. If you still have questions please call your local Washington County Public Library for help.

Home Page

The Enterprise catalog home page displays a search bar, best sellers slide show, and links to a variety of SEO sponsored services, such as **iDownloads**, the place to checkout and download eBooks, audio books, music, and videos. In the upper right corner of the Home page are links to **Log In**, **My Account**, and **My Lists**.

Find An Item

A quick search can be done by just typing words into the search box in the **Search Bar** near the top of any page. You can type terms, a title (partial or full), or an author's name and the search program will find the best matches. You can also make a couple of choices to help narrow your initial search.

The box on the left, **Everything** by default, allows you to limit your search to specific Washington County Public Library locations (Washington County Public is the Marietta library). If you leave the selection as **Everything**, the search covers all the libraries in Ohio that share the catalog.

The next box displays **All Fields**. This default setting uses a “best guess” to find matching items. Left click the box to refine your results by specifically choosing the type of search you want to perform, such as **Author** (you can now use the “first name” “last name” format).

After you enter your search term(s) and make your search selections, left click the blue **Search** button to the right of the search box.

Advanced Search

If you want more control over your initial search results, try the Advanced Search (left click **Advanced Search** to the right of the blue Search button). The advanced search page is divided into five areas. You can enter as little or as much information as you want; you do not have to enter something in each area.

- **Find items that have:** - This section presents two choices.
 1. **All these words:** - Enter search terms, parts of titles or authors' names. The search will look for all of the words or numbers in any order.
Example: **ohio frogs** or **frogs ohio** (you do not need to use capitals).
 2. **This exact phrase:** - enter a title or author's name or any other phrase. The search will look for matches to the phrase in the order that the words or numbers are entered.
Example: **ohio frog and toad atlas** (a title).

- **Don't show items that have:** - Use this in conjunction with **Find items that have:** to exclude certain words or numbers from your search.
Example: **ohio frogs** in **All these words:** and **toads** on **These unwanted terms:**
- **Additional limits:**
 1. **Format type:** - Left click **Any Format** to see a list of all the available formats, such as DVD (use DVD for Blu-ray).
 2. **Language:** - Select the language of the item you want.
 3. **Library:** - Used to select a specific library's holdings to search. This choice allows you to choose from all the Ohio libraries that share the catalog.
 4. **Title:** - You can search for a specific title by entering it here instead of on the **This exact phrase:** line. You can also exclude a specific title from your results by selecting **Don't show.**
 5. **Author:** - Used the same as the **Title** search.
 6. **Subject:** - Used the same as the **Title** search.

Search Results

After you click the **Search** or **Advanced Search** buttons, you will be presented with a list of items that best match your search terms and settings.

The screenshot shows a library search results page for the term "Frogs". The page header includes a search bar with "Everything" selected, "All Fields" as the search scope, and "frogs" as the search term. A "Search" button and an "Advanced Search" link are visible. The results section shows "3281 results found" and a "Sort By: Relevance" dropdown. The results are listed in a table with columns for "Title", "Author", "Pub. Date", "ISBN", "Excerpt", "Available", "Holds", and "Copies".

Item	Title	Author	Pub. Date	ISBN	Excerpt	Available	Holds	Copies
1.	Frogs	Milland, Ray	2000	9780792846888	Jason Crockett invites his family to his island estate to celebrate his birthday. Crockett has poison.	7	0	8
2.	Frogs	Lovett, Sarah, 1953-	1996	9781562612825	Extremely weird.	7	0	7
3.	Frogs.	Gareth Stevens Publishing	2005	9780836841848	All about wild animals.	7	0	7

On the left side of the page, there are several filter sections: "Limit Search Results" (with an "Only Show Available" button), "Library" (listing various branches), "Author" (listing authors like Jonathan London), "Format" (listing Books, CD, DVD, Videocassette, Audio cassette), "Language" (listing English, Spanish, etc.), and "Publication Date". Each filter section has "Include" and "Exclude" buttons and a "More" button.

Refine Your Search Results

You can easily refine your search using the **Limit Search Results** filters listed along the left side of the page. At the top of the column you will find a red **Only Show Available** button. Left click it to see only the items that are currently checked in. The rest of the filters all work the same. Each section displays a specific type of information, such as format. Only the first five items are shown initially in each section. Click the **More** button to see an additional ten items or **Expand All** to see the complete list. Work in one

section at a time. Select an item by left clicking the check box in front of it. You can select as many or as few items as you want. After you make your selections, left click either the **Include** or **Exclude** button. Repeat for the other sections as you wish. Each time you click the **Include** or **Exclude** buttons, your search results will be updated to reflect your choices. The selections of filters will also update depending on the choices you make. If you include only **Books** under Format, all the other choices under Format will disappear. If you exclude **Books** under Format, all the authors who only wrote books will disappear from under the Author filter.

Your filter choices are displayed at the top of the column. If you want to remove a selected filter, left click the **X** in front of it. Left click the **Clear All** button to remove all your filters

When you left click a title, the screen darkens and a pop-up window appears. The window displays information about the title, the libraries that have a copy of the item, and the item's call number (catalog number). Check the **Status** column to see if it is checked in, checked out, in transit, or on hold for someone else. If a Washington County Public Library location has a copy, it will be listed first. In this example the Marietta Library has a copy of *Froggy's Day with Dad* and it is checked in on the shelf in the Juvenile Easy Fiction section.
